WE CAN ALSO TAILOR PACKAGES TO FIT YOUR BUDGET AND SPONSORSHIP GOALS.

All proceeds from the event are designated to support NFCR's leading-edge cancer research programs.

The AIM-HI Accelerator Fund (AIM-HI) is a non-profit organization changing the paradigm of funding biotech startups, utilizing charitable giving to make impact investments. Born out of NFCR, AIM-HI focuses on providing early-stage oncology companies with lifeline seed funding, critical coaching, and important access to our global network of key opinion leaders for cancer research, drug development, biotech and pharmaceutical sectors, and investments. Our mission is to bridge the gap between laboratory discoveries and clinical trials, with the ultimate goal of developing innovative cancer therapies and technologies that can save patients' lives.

The National Foundation for Cancer Research (NFCR) is a 501(c)(3) non-profit organization that provides scientists critically-needed funding to make cutting-edge discoveries in cancer treatment, detection, prevention and, ultimately, a cure. NCFR has distinguished itself by supporting high-risk, high-impact and transformative research often overlooked by other major funding sources that deem it too risky. Since its establishment in 1973, NCFR has provided more than \$410 million for cancer research and public education.
